

# ALLIED RISK SOLUTIONS

*"A demonstrated system of accountability and support for CEOs and General Managers."*

## DUTY MANAGER TRAINING (Risk & Compliance) Coaching and Mentoring Program

### LICENSEES UNDER SIEGE ▲

The Liquor Amendment (3 Strikes) Act 2011 (NSW) from 1st January 2012 has introducing a "three strikes" disciplinary scheme relating to breaches under the Liquor Act 2007 (NSW) (Liquor Act). The new scheme has obvious implications for licensees,

managers and business owners especially where there is a risk for a licence to be suspended or cancelled, or an individual disqualified. The consequences of each decision made by line managers become the ultimate responsibility of the licensee.

### YOUR SOLUTION ▲

Introduce a proven system of operational and reporting accountability, already tested and endorsed by the courts. Risk and Compliance management is a separate business unit requiring the same level of understanding as other business units within the venue.

#### 1 Management Training

▲The up skilling of the Manager's understanding of their legal, operational and administrative responsibilities and the systemic reporting and management of incidents.

#### 2 Coaching and Mentoring

▲Coach and Mentor line Managers to communicate, manage, coordinate and delegate when dealing with incidents likely to become a complaint or lead to civil or criminal liability.

Taking the first step to investing in your future is only a phone call away.
